

# Partner Violence Community Resources

## Victim Services

Partner violence agencies offer many different services for people who are experiencing abuse—whether it is physical, sexual and/or emotional. All partner violence agencies in our area have a telephone hotline that answers 24 hours a day, seven days a week. Most of the agencies provide shelter (temporary housing for victims and their children who are in immediate danger) and many other services as well. They provide counseling services for victims and children, legal advocacy for help in the court system, medical advocacy, economic empowerment counseling, and other needed services. Services are free of charge and are completely confidential.
