

Weber Memorial Report for 2025 Annual Meeting

The Weber Memorial site is preparing for a new season. It is a place where all churches can take advantage of the facilities to have a summer church service, a picnic or any other event that would be enhanced by the expansive space, peaceful atmosphere and natural beauty. The conference office can be contacted to provide details and to schedule.

There were no major projects from the past year. The grounds have faired the winter and spring has come back in abundance. It is definitely a place worth visiting and even if just to walk the cemetery to view the gravestones of the early pioneers of our faith and our churches.

Tony and Rhonda have been the on-site caretakers for many years and are there to tend to the grass, to trim and to prepare the church and pavilions for events. There are restrooms for convenience as well as a fire pit (must bring your own wood) for making special memories.

Thank you to all who have made donations, have had events and have visited to support Weber Memorial which continues its purpose as a tribute to Rev. John William Weber "as long as sun and moon shine, trees grow and waters run".
